Art Unit: 1752

1. Claims 8, 24-27, 47, 49, 50 and 53 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 8 is outside the scope of its parent claim 6 since claim 8 is not directed to diffusion transfer as is claim 6. Claim 47 is of the same scope of claim 4. There is no antecedent basis for the term "The second photovoltaic device" in claims 24-27 since parent claim 23 does not set forth second devices. Claims 49 and 50 are outside the scope of their parent claim 48 since the process of claim 48 is not diffusion transfer. Claim 53 is of the same scope as claim 9.

2. The prior art rejection using Murphy et al is withdrawn since the layers in Murphy et al. are not substantially transparent as defined on page 7 of the specification and the silver in Murphy et al. is uniformly dispersed in the conductive polymer.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
